**Human Cell Lines from aborted foetuses-**

For some vaccines, the active ingredient is grown in laboratories on cultures that contain human cells. Some viruses, such as chickenpox (varicella), grow much better in human cells. After they are grown, the viruses are purified several times to remove the cell culture material. This makes it unlikely that any human material remains in the final vaccine.

For vaccines used in the UK, human cell lines are used to grow viruses for these vaccines:

The cell lines currently used (called WI-38 and MRC-5) were started in the 1960s using lung cells taken from two aborted foetuses. The abortions were legal and agreed to by the mothers, but they were not performed for the purpose of vaccine development.

Some people may have moral concerns about using a vaccine produced in this way. In 2005 the Vatican's Pontifical Academy for Life issued a statement—called 'Moral reflections on vaccines prepared from cells derived from aborted human foetuses'. This statement says that they believe it is wrong to make vaccines using human cell strains derived from foetuses, and that there is a 'moral duty to continue to fight' against the use of such vaccines and to campaign for alternativesAnimal Cell Lines.....subsequently, it transpired that the vatican church has blinked and backedout in the faceoff with the powerful drug

Viruses for these vaccines are grown on Vero cells. This is a cell line started in the 1960s using kidney cells from an African green monkey.

The measles and mumps parts of the MMR vaccines (MMRVaxPro and Priorix) are grown on a culture which began with cells taken from a chick embryo.

There is no evidence of any risk that animal diseases can be transmitted by vaccines grown on animal cell lines.

Unani medicine, also called Unani Tibb, Arabian medicine, or Islamic medicine, a traditional system of healing and health maintenance is popular in South Asia. The origins of Unani medicine are found in the doctrines of the ancient Egyptian physicians adopted by the Greeks-Hippocrates and others. It was

later developed and refined through systematic experiment by the Later Arabs, most prominently by Muslim scholar-physician Abu ibn Sina(Avicenna.) ...... With additional contributions of medical wisdom from other parts of the Middle East, Unani medicine came to be known also as Arabian, or Islamic, medicine. Unani system of medicine is a great healing art as well as science. It treats a person as a whole not as a body of individual parts. It is aimed at treating body, mind and soul. This system is based on Ancient Egyptian theory of four humors viz.

blood, phlegm, yellow bile and black bile,

### **Principles of Unany System**

(1) Arkaan, or elements, (2) Mizaj, or temperament, (3) Akhlat, or bodily humours, (4) aaza, or organs and systems, (5) Arwah, or vital spirit, (6) Quwa, or faculties or powers, and (7) Afaal, or functions.

Prohibited to you are dead animals, blood, the flesh of swine, and that which has been dedicated to other than Allaahu-S.W.t. , and [those animals] killed by strangling or by a violent blow or by a head-long fall or by the goring of horns, and those from which a wild animal has eaten, except what you [are able to] slaughter [before its death], and those which are sacrificed on stone altars, and [prohibited is] that you seek decision through divining arrows. That is grave disobedience. This day those who disbelieve have despaired of [defeating] your religion;

So fear them(people) not, but fear Me(Allaahu-s.w.t. 1999).

## **Nephrosis**

Nephrotic syndrome is usually caused by damage to the clusters of small blood vessels in our kidneys that filter waste and excess water from our blood. The condition causes swelling, particularly in feet and ankles, and increases the risk of other health problems.

#### 

## **Nephrites**

Acute nephritis occurs when kidneys suddenly become inflamed. Acute nephritis has several causes, and it can ultimately lead to kidney failure if not treated. It is known as Bright's disease.

## **Types of Nephrites**

### 1---INTERSTITIAL NEPHRITIS:-

...Occurs when the spaces between the kidney tubules become inflamed and the kidneys are swollen.

### 2---PYELONEPHRITIS

On The {Dooms]Day the wrong-doer will bite at his hands, he will say, "Oh! would that I had taken a (straight) path with the God's Messenger!

Inflammation of the kidney is called

Pyelonephritis, due to a bacterial infection.

Generally the infection begins in the urinary

bladder and then spreads to the urinary tubules

(ureters) and into the kidneys.

### 3---GLOMERULONEPHRITIS

Glomerulonephritis inflames the fine capillaries called glomeruli- the filtering units-Kidneys have millions of capillaries.

Damaged and inflamed glomeruli can not filter the blood properly-resulting in accumulation of toxins in the Blood Stream

restlessness, fever with thirst, but drinking or sight of water produces aggravation of all symptoms. Acute infectious cases.

#### 4----Dulcamara:

Catarrh of the bladder from taking cold in damp weather. Constant desire to urinate felt deep in abdomen with an unpleasant sensation of bearing down towards the vesical region and urethra. Urine passed involuntarily. Urine scanty, fetid, turbid, oily, containing tough jelly-like white or red mucus mixed with blood; urine milky, fetid or muco-purulent, reddish, burning. Emission drop by drop, slimy sediment. Many old men with very bad cystitis but not greatly enlarged prostate received great relief with this remedy.

5----Terebinth:

Very dark bloody urine which deposits slimy, thick muddy sediment.

On The {Dooms]Day the wrong-doer will bite at his hands, he will say, "Oh! would that I had taken a (straight) path with the God's Messenger!

"Ah! woe is me! Would that I had never taken such a one for a friend! "He did lead me astray from the Message (of Allah) after it had come to me! Ah! the Evil One -SATAN is but a traitor to man!"

#### 2----Apis M:

Bulging of the fontanelles. Face swollen and pale; patient is listless, drowsy, quiet, occasionally startling with a sharp cry. After scarlet fever.

#### 3----Zincum Met:

The patient rolls his head and wakes from sleep as if frightened; the occiput is hot, the forehead cold; grinding of teeth; eyes sensitive to light; fixed and staring; nose dry; jerking of muscles during sleep.

#### 4----Helleborus:

Depression of the sensorium is the ranking symptom. Eyes they have but they see not; ears they have, but they hear not, etc. Automatic motion of one arm and one leg. Rolling of the head and boring it into the pillow is an important indication of this remedy. The Cephalic cry is also present. Convulsions are frequent and severe. Meningitis is a complication. Urine is suppressed and the eyes do not react to light.

On The {Dooms]Day the wrong-doer will bite at his hands, he will say, "Oh! would that I had taken a (straight) path with the God's Messenger!
